Hi Donovan

Please note that this order (117805078) was done by one of the DBN local vehicles due to vehicle availability on the day as we cannot co-load due to space constraints.

Kind Regards

Hi Jean

Is Libra sorted your side? And were you able to get any update yet?

Hi all

Please note that Libra is down at the moment and can't confirm, however please note that the order 117805078 appears to be the order which was separated and delivery by secondary fleet.
Once we have feedback, we will update.

Kind Regards
