Figure 1 illustrates the experimental setup. A participant is seated at a table, viewing a screen. The screen displays a 3D model of a face with various facial features labeled. The participant is looking at the screen, and the screen is connected to a computer system. The computer system is labeled 'Computer' and 'Data Collection System'. The participant is also labeled 'Participant'.

Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point. The distance between the starting point and the target is labeled as  $d$ . The subject is instructed to move their hand from the starting point to the target. The video screen is connected to a computer system that records the hand's position and movement time.
