[illegible][illegible][illegible][illegible]

Figure 1

A schematic diagram illustrating the experimental setup for measuring the time delay between two signals. The diagram shows a signal source connected to a delay line, which is then connected to a detector. The delay line is represented by a series of overlapping circles, indicating a distributed system. The input signal is labeled "Input Signal" and the output signal is labeled "Output Signal". The time delay is indicated by the horizontal distance between the input and output signals.
